Security Safe

Global **SIX**

GlobalSIX Security Safe

- Offers sophisticated defence against both skilled and unskilled burglary.
- This range incorporates internal charging points and can accommodate 50 Laptops.

Design and Construction

- Welds are free from cracks, porosity, cavities and slag.
- Welds are merged smoothly into the adjacent surfaces without pronounced humps or craters, and the parent metal adjacent to the welds are free from cracks.
- The outside of the safe welds is ground flush with the parent metal to give a smooth finish

Material

- 3mm mild steel, wet sprayed.

Locking Mechanism

- 4 x 30mm Solid bar locking pins on the hinges side, 4 x 30mm Retracting pins on locking side.
- 7 lever key locking systems
