## Shielded Patch Panel

### 1U 48-Port Shielded Patch Panel Empty

Global **SIX**

#### Description

The 48-port empty patch panel is compatible with the installation of different kinds of modular jacks, complies with Gigabit Ethernet applications, and it is suitable for interaction and termination of horizontal cabling between devices, equipment and centralized points, as well as fits in 19" equipment racks and cabinets.

#### Key Features

- Plate Material: SPCC black nickel plating
- Bracket Material: black nickel plating on SPCC
- Bracket: SPCC with black surface
- Operating Temperature Range: -10°C to 60°C
- Storage Temperature Range: -40°C to 68°C
- Humidity: 10%~90%RH
- Compatible with various performance jack modules
- Solid and easy installation design saves installation and operation costs
- Compatible with 19-inch equipment racks, cabinets, and wall mount shelf
- All ports are large front-end marked, and easier use
- The back end has a cable manager that effectively guides the cable to the termination point

#### Specifications

Integral Rear metal cable management
Modern design and simplified mounting
Unused ports can be covered with blanking modules
Numerical marking of ports on the front side of the Panel
Suitable for GlobalSIX snap in Keystone Jacks

#### Applications

- GlobalSIX Modular Patch Panels and GlobalSIX Keystone Jacks are ideal for use in Shielded Cabling Installations and solutions with a clip-on rear cable manager that offers integrated cable tie slots to manage and support individual cables.
- ISO 11801, ANSI/TIA-568-C.2 Standards is ideal for today's high performance equipment and workstations
- Ethernet 10BASE-T, 100BASE-T(Fast Ethernet), 1000BASE-T (Gigabit Ethernet), 10GBASE-T (10 Gigabit Ethernet over limited distance as specified in the industry standards of 10GBASE-T)
- 155Mb/s ATM, 622Mb/s ATM, 1.2Gb/s ATM
- Token Ring 4/16
- Digital Video & Broadband/Baseband Analogue Video
- Voice over Internet Protocol
