

Copper Structured Cabling Solutions

Angled Patch Panel

Unshielded Angled Patch Panel

Specifications

- Modern design and simplified mounting
- Numerical marking of ports on the front side of the panel
- Integral Rear metal cable management

Description

- 24-port empty patch panel matches with the installation of different kinds of modular jacks, complies with Gigabit Ethernet applications, and it is suitable for termination of horizontal cabling between devices, equipment and centralized points, as well as fits in 19" equipment racks

Key Features

- Low attenuation loss and high return loss
- High strength die-casted zinc alloy shielding design meets the industry shielding standard
- Easy installation design
- Compatible with 19-inch equipment racks, cabinets, and wall mount shelf

Applications

- Designed at an optimal angle to utilize rack space and helps cable routing utilizing vertical cable management
- GlobalSIX modular Patch Panels are ideal for use in Unshielded Cabling Installations and solutions with a clip-on rear cable manager that offers integrated cable tie slots to manage and support individual cables.
- ISO 11801, ANSI/TIA-568-C.2 Standards is ideal for today's high performance equipment and workstations
- Ethernet 10BASE-T, 100BASE-T(Fast Ethernet), 1000BASE-T (Gigabit Ethernet), 10GBASE-T (10 Gigabit Ethernet over limited distance as specified in the industry standards of 10GBASE-T)
- 155Mb/s ATM, 622Mb/s ATM, 1.2Gb/s ATM
- Digital Video & Broadband/Baseband Analogue Video
- Voice over Internet Protocol

Packaging

Description	Color	Inner Box	Carton	Carton measurement (L*W*H)	Weight
24 ports empty patch panel (Unshielded)	Black	1PCS	20PCS	51.5cm × 42cm × 29.5cm	9 KG

Part Number

G6UPPE24A

24 Port Angled patch Panel Modular with Rear Cable Management
